

**GREG M. STALEY, P.E.**  
*Vice President of Operations*

---

**EDUCATION:** B.S. in Civil Engineering, University of Illinois at Urbana-Champaign, 1993.

**CAREER HISTORY:**

1993 - Present

***The Clayton Engineering Company, Inc., St. Louis, Missouri***

In 1999, Mr. Staley received his professional engineering seal. Mr. Staley was elected to the Board of Directors in 2000. In 2003, he was named the Corporate Secretary and an ESOP Trustee. In 2013, Mr. Staley became the Vice President of Engineering for the company and, in 2014, he moved to the Vice President of Operations. The majority of his day-to-day duties involve acting as a senior project manager/engineer for the company.

As a project manager/engineer, Mr. Staley manages all aspects of a variety of projects. Responsibilities include hydrologic and hydraulic analyses and design including computer modeling of rivers and streams, detention basins, culverts, channels, closed conduits, and commercial site floodplain recovery and permitting. Mr. Staley provides analysis and design for all aspects of commercial, industrial, and residential subdivisions including site planning and zoning or re-zoning, site grading, sanitary systems, storm water and water quality management and maintenance, water mains, and road improvements.

As Vice President of Operations, Mr. Staley negotiates, prepares, and signs contracts for projects. He also provides coordination between contractors, utilities, and local, state and Federal agencies, including the Federal Emergency Management Agency, Missouri and Illinois Departments of Transportation, the Metropolitan St. Louis Sewer District, AmerenUE, Laclede Gas, Missouri American Water Co., Missouri and Illinois Departments of Natural Resources, Illinois EPA, Missouri Department of Conservation, U.S. Army Corps of Engineers, St. Louis County, Monarch-Chesterfield Levee District, Missouri Bottoms Levee District – Bridgeton Subdistrict, Lambert-St. Louis International Airport, and various cities in and around the St. Louis metropolitan area.
